A partnership between Australand and Landcom

WELCOME to the February 2010 Construction Monthly Update for **Vine**.

Sales Update

Sales at Vine continue to be strong with now over 60% of apartments being sold reflecting the strong demand for these quality apartments in the "Dress Circle".

The remaining 1 bedroom apartments on offer still provide space and flexibility in a lifestyle location overlooking parklands and the waterfront.

A limited number of the popular 1 bedroom loft units are still available from \$440K.

Construction Update

The end of February has seen the successful completion of the excavation works and subsequent demobilisation of Professional Contracting from the site.

We are pleased to announce the appointment of PBS Building (www.pbspropertygroup.com.au) who will commence construction of **Vine** in late March 2010 and finish by mid 2011.

PBS is a recognised builder of luxury developments including "The Waterfront" on Lake Burley Griffin, "The Residence" in Lindfield, luxury homes in Cape Cabarita at Newington at Homebush and most recently Australand's "Pavilions on the Park" in St Leonards.

A testament to PBS Building quality is reflected in their receipt of numerous MBA & HIA Awards consistently since 2006 for low, medium and high rise apartment buildings.

We look forward to PBS Building delivering more of their building excellence at Discovery Point over the next few months.
